LIQUIDATION NOW MARKET FEATURE

Heavy Selling All Down the Line, With Resulting Fall in Prices.

RECENT BOOST EVIDENTLY DUE TO MANIPULATION 3

Course of United States Steel Affords Striking Example of the Situation.

NEW YORK, Oct. 6.-There was furher heavy speculative liquidation in all partments of the stock list today, and inroads on prices resulted.

material inroads on prices resulted.
United States Steel was, at one time, 22 lower than last night's closing price and 32 below the top record price touched on Monday of this week.

The extent to which this decline affects the speculative world is best judged by the volume of the dealings, which are cloquent of the widespread consequences of the fall on the pockets of speculators. Probably the violent relapse in United States Steel is of most noticeability on the tone of the market in its purely sentimental aspect. The marvelous upward course of the stock has impressed the speculative imagination as few things of late years have done.

A powerful stock market pool embracing the most influential bankers in the country was credited with determined accumulation and support of the stock. This impression was fostered in every possible way. In the same way, points of value in the stock were urged in an attractive way.

Foreign speculative holders especially

Foreign speculative holders especially have grown restive under the unsubstantial material on which their hopes were being fed, and suspicious that they were following an ordinary stock maneuver instead of the weighty projects of controlling financial authorities. The suspicion was aggravated by the signs of pressure to liquidate, which suggested that leaders and conductors of the campaign were striving to get out of their holdings.

The market lost its mainstay with the failure to sustain United States Sicel, and was especially vulnerable to the cf-ect of closing of loans by the banks.

There was less evidence of calling of loans by the banks today.

of closing of leans by the banks. There was less evidence of calling of the street was less evidence of calling of the street was by the banks today.

As a consequence, yesterday's shorts are disposed to cover at the early dene, and prices enjoyed a first effective covery. The reception accorded the crease in the Atchison dividend was a fresh disconcerting influence. That her started upward, but stopped nearly points short of its high price on the overment inaugurated in expectation of e dividend increase.

At the same time, heavy selling of

the dividend increase.

At the same time, heavy selling the same selling and the same selling as th

United States bonds were unchanged on

ew York Bonds.

SALT LAKE MARKETS STILL AT STANDSTILL

and Little Change in Prices.

It has been a long time since the Salt Lake produce market has remained at a dead level for such an extended period. Nothing remarkable has appeared in the way of sudden changes of prices or quantities or qualities for nearly two weeks. What was true yesterday or the day before or the week before in regard to potatees, tomatees or grapes is true today and promises to be the same for tomorrow.

Produce men say that such a long period of quiet is very inusual. Cold weather, which may come at any time, however, is expected to send some things, such as tomatees, out of the market. Even watermelons and strawberries still linger, but the price is as high as the eating qualities are low. Egg plant is very good just now, so is cabbage and all other garden truck. Hubbard squash has been in for some time and brings with it visions of Thanksgiving.

BUYING BY SHORTS CAUSES AN ADVANCE

Tin and Iron Also Show De- Nothing New on the Counters, News of the Day in Wheat Circles Generally Bullish: Other Gains Steady.

CHICAGO, Oct. 6.—Wheat prices made substantial gains on the board of trade today, owing to liberal covering by influential shorts, the persistent buying, presumably inspired by the high premiums prevailing for the cash grain here and at other important grain centers. An excellent demand for cash wheat at Minnespolis and Kansas City, the Ohio crop raport, which showed a deterforation of about 2,000,000 hushels in the total yield for the state, compared with the government's estimate, and firm cables were additional builtsh influences. December ranged between \$1.01261.022. The close was \$1.01461.013.

A material falling off in offerings of corn from the country checked the declining tendency of prices and held the market steady nearly all day. At the close prices were a shade higher than yesterday.

Oats weakened late, owing to liquidation of December. The market closed heavily, \$5\text{the to \$6}\$ lower.

Provisions were weak. Prices closed [3510c to 156172] lower than yesterday's close.
